9. In light of the growing link between acts of terrorism and transnational organized criminal activities across the continent and beyond, participants acknowledged the imperative for a greater synergy and cooperation between the member countries and organizations of the Djibouti and Nouakchott Processes and agreed to undertake the following courses of action:

(i) The meeting urged member states to implement previous decisions taken within the framework of the Djibouti and Nouakchott processes, in particular the decision of the Djibouti process meeting, which urged member countries to deploy officers to AMISOM, in order to support the mission and the National Intelligence and Security Agency (NISA) of Somalia, as soon as possible;

(ii) The meeting urged member countries of the Sahel region and other stakeholders to take a coordinated approach to assist the G5 Sahel, through the Nouakchott process, in its efforts to defeat terrorist groups operating in the Sahel region. The meeting called for a field visit to the G5 Sahel to assess the needs on the ground;

(iii) The meeting also called for enhanced support for the Multinational Joint Task Force (MNJTF) to strengthen their capacity to gather information on a timely basis;

(iv) Welcomed the efforts made by the AU Commission to encourage information sharing between countries and organizations that are members of Djibouti and Nouakchott Processes. In this regard;
○ it was agreed to convene regular meetings between the Djibouti and Nouakchott Processes and other similar initiatives to ensure continued shared assessment of threats and best practices;

○ The Commission appealed to member states to appoint focal persons to AFRIPOL to ensure timely information sharing and also build capacity of member countries to request for and gather relevant data;

○ The Commission also urged AU member states to designate focal institutions, and not individual persons, to link-up with the African Centre for the Study and Research on Terrorism (ACSRT), to ensure effective coordination of appropriate national authorities;

○ The Commission encouraged member countries to facilitate information sharing between individual countries within the Djibouti and Nouakchott processes, as well as through the regional arrangements;

(v) Within the framework of the Djibouti Process, participants acknowledged the delays experienced in the full operationalization of the Regional Unit for Fusion and Liaison (RUFL) based in Uganda and called for the speedy operationalization of the RUFL through the mobilization of the necessary human, financial and logistical resources, including the rapid deployment of experienced, intelligence officers seconded to the RUFL in Entebbe, Uganda. The meeting agreed that the secondment of Intelligence Officers should be done by the end of February 2018, paving the way for the launching of the RUFL by April 2018. In this respect, participants urged the Commission to step up its efforts aimed at mobilizing the necessary resources for the RUFL.

(vi) Participants acknowledged the need to link the RUFL in Entebbe to the UFL structure, in order to share information on the common threats faced by the two regions. In this regard, the UFL agreed to extend its secured communication system to the RUFL and provide the requisite training for the second-generation system, before the end of the year, with the assistance of the Algerian service. In addition, capacity building in intelligence analysis will be provided by UFL;

(vii) Participants underscored the importance of focusing on broader human security initiatives and programs including, issues of de-radicalization, as well as development activities, such as Quick Impact Projects (QIPs), that could deliver basic services to communities.
